PROFESSIONAL SUMMARY

Results-driven Software Implementation Specialist with nearly 3 years of hands-on experience bridging complex business requirements and technical architecture. Successfully managed and delivered end-to-end HR software ecosystems for 10+ major corporate clients, effectively onboarding over 14,000 active end-users.

Possesses a strong technical foundation and analytical mindset, enabling seamless data migration, system configuration, and root-cause troubleshooting during live deployments. Adept at leveraging AI tools to streamline workflows and optimize project timelines. Seeking a long-term commitment (3-5 years) in a professional environment to drive operational excellence and deliver high-impact software solutions for clients.

CORE SKILLS

Implementation & Operations

- Business-to-Technical Requirement Translation
- Project Governance & Timeline Control
- End-User Training & Change Management
- Client Relations & Stakeholder Onboarding
- Root Cause Analysis & Troubleshooting

Technical Supporting Skills

- **Database Management:** SQL Server, T-SQL (Data Migration, Extraction & Enterprise Reporting)
- **System Architecture:** RESTful API, PWA, System Integration Workflows
- **Productivity Tools:** Git, Copilot CLI, Gemini CLI (Workflow Optimization)

WORK EXPERIENCE

VIET TIN SOFTWARE SOLUTIONS CO., LTD. 06/2023 - 05/2026

Implementation Team Lead & Project Manager

06/2024 - 05/2026

- **End-to-End Delivery:** Coordinated and executed the deployment lifecycle of the Paradise HR ecosystem for 10+ large enterprises (including Lotte, Nidec, Detmold, Tripod), successfully onboarding over 14,000 active users.
- **Business Analysis:** Gathered, analyzed, and translated over 150 complex HR business rules (Core HR, Time Attendance, Payroll, Insurance, KPI) into precise technical specifications, reducing requirement gaps between clients and dev teams by 20%-30%.
- **Project Governance:** Optimized resource allocation to maintain a 90% project success rate. Delivered complex software modules within 15-20 days (outperforming the 20-25 days standard) while keeping budgets strictly within +/- 5%.
- **Quality & Retention:** Achieved 90%-95% system stability during peak payroll processing periods, reducing clients' manual workflows by 50% and contributing directly to a 100% client retention rate.

System Analyst & Implementation Support Specialist

09/2023 - 05/2024

- **Data Migration & Management:** Facilitated the end-to-end data migration process for onboarding clients. Developed and optimized complex T-SQL queries and stored procedures on SQL Server to generate tailored enterprise HR reports.
- **Configuration & Operation:** Configured core system logic for the Paradise HR ecosystem and the "Vao Ca" shift-management application. Established customized attendance and scheduling rules, ensuring data integrity for thousands of daily check-ins.
- **Technical Troubleshooting:** Collaborated closely with the development team to analyze, isolate, and resolve critical technical issues, ensuring a seamless live-operation experience for end-users.

Software Implementation Intern

06/2023 - 09/2023

- Accelerated understanding of enterprise software deployment workflows, learned core HR business logic, and assisted senior specialists in gathering requirements and conducting user acceptance testing (UAT).

EDUCATION

SAIGON UNIVERSITY

09/2019 - 11/2023

Degree: Bachelor of Engineering in Software Engineering

AWARDS & CERTIFICATIONS

- **Employee of the Year (2024):** Recognized for outstanding contributions in project delivery, successful large-scale implementations, and elevating client satisfaction.
